NORTHERN REGIONS
RECREATION CONFERENCE

“Gaining the Edge” will be the theme of the 2009 conference, to be held on 26 May at the Cable Beach Club Resort in Broome.

We encourage anyone interested in issues affecting Northern WA now and in the future to come along, especially those who, as this year’s theme suggests, want

to gain the edge by broadening their knowledge and meeting others in their region.

Those living and working in the Northern regions of our state should not miss out on such a great professional development opportunity that is close to home and relevant to their regions.
