

Member Profile

Western Australian Flying Disc Association

30 August 2010

Purpose/aim of organisation:

To promote and develop Ultimate (Frisbee) and Disc Golf in WA.

Size of organisation:

The association has over 350 members statewide.

Number of staff members/volunteers:

We have 4 Executive Committee Members and 6 General Committee Members; we are purely a volunteer operated organisation.

Key areas of focus at the present time:

Youth Development is one of our key areas of focus at this time including establishing a junior competition and achieving representation at both National and International events. Another key area of focus is to expand and further support our regional clubs and continuing volunteer training and recognition.

Highlights in the last 12 months:

- Hosting the 2009 Australian Ultimate Championships
- Winning the Volunteer Support award at the 2009 Sport and Rec Industry Awards
- Holding 3 Youth Gala Day events for High School aged students

When and why you became a Member of WA Sports Federation:

We became a member in December 2008. The main reason for joining the federation was because we believe in supporting the organisations that support sport in WA. In order to further develop *our* sport, it is vital that we are working with and learning from other sports and industry professionals as well as keeping up to date with relevant trends and issues. Being a member of WASF helps us achieve this through networking opportunities, seminars and training opportunities.

Highlights of our membership have been the Working with the Media, Social Media, Working with Children and Member Protection workshops.
